

## Fishing Regulations Målselv river 2022

SUM has decided the Regulations for this season in Måselva river, 10<sup>th</sup> of March 2022.

The Regulations applies to the Målselv watercourses, where there is anadromous species.

### **Fishing times:**

The season starts at 15<sup>th</sup> June at 00 a.m.

From the Målselv waterfall and downstream you can fish salmon even to 17<sup>th</sup> of August.

Downstream from where the Bardu- and Målselv rivers flow together, you can fish sea-trout even to 14<sup>th</sup> of September.

All other anadromous species should be set back to the river.

Upstream from the Målselv waterfall the season starts 15<sup>th</sup> of June and ends 26<sup>th</sup> of August.

### **Tools and equipment:**

It is not allowed to use bait as prawn or fish fry.

It is not allowed to use gaff for landing the salmon.

### **Quota:**

The quota per day are 2 salmon. If you catch a female salmon above 7 kg your fishing period has ended. The quota is personal for each 24 hours. The quota per day are 5 sea-trout.

### **Launching Requirement:**

Sea-char should be set back all the season. In addition, kelt should be set back to the water (not charging the quota). There is no requirement for female salmon, but if you set it back to the water, it does not charge your quota. All other salmon you set back charges your quota.

### **Disinfection:**

Everybody who comes from other watercourses must disinfect the equipment (rod, lines, waders, fishing fly and all other tools) before starting fishing. You find disinfect stations several places along the river. Most of them are self-instructing. You find disinfect stations by taking a look at the map on the internet [www.malselva.no](http://www.malselva.no)

### **Other things:**

There can be other regulations in some of the areas along the river.

Målselv river is a National watercourse, so the regulations can be changed during the season.

All the anglers are responsible to read and understand the rules. All offenses to regulations will be imposed a fee of 2000 NOK.
