

Fishing license in Storelva, Berlevåg 2022

- You can buy a fishing license everyday from 5pm to 6pm in the cabin. The license for zone 1 can be bought in advance, by calling 919 26 422 (from 5pm to 6pm everyday).
- The fishing license is valid from 6pm to 6pm the next day (24 hours). It is forbidden to fish from 1am to 6am every night.
- As a fisherman it is your responsibility to be updated on the rules for fishing. The rules might be changed throughout the season, if the fishing stock require it.
- Youth below 16 years with a membership/or are citizen in Berlevåg, can buy a license for a month. But they must let the riverguard know when they are fishing. This is because it is a limit on numbers of fishermen in the river.
- If you have a license for the entire season, you have to deliver a weekly catch report. If you have a 24 hour license, you should deliver the catch report asap.
- NB! If you do not deliver the catch report within 7 days from the end of season, you are not allowed to buy a license next season.
- According to the contract between BJFF and FeFo and the law of Finnmark, it is the registered address on each fisherman, that define which price-range you belong in. This includes members in BJFF. That's why we have different price-range according to your address and if you are a member of BJFF. If you do voluntary work (VW) also count in the price-range.
